

# Winter package at Hindsæter

”Explore the North - elks, snow, ice and silence”

This programme is meant as an introduction to the wild nature of Norway, but it is also for those who like to discover something new. We have well marked trails in the wilderness for everyone. Experience a silence you will only find few places in Europe. And meet one of the largest forest animals, the elk. In February and March there is a good chance to see them!

- Sunday** • Arrival before dinner
- Monday** • Ski rental cross country skis followed by 1,5 h introduction in techniques. You get a map and we help you pointing out our trails and directions, so you feel safe to try a tour on your own in the marked tracks.  
• After dinner we give information about the program/ possibilities for the week by the fireplace
- Tuesday** • Snow shoe rental. Try the snow shoes in our snow shoe trails and try to make your own trails in the deep snow. Discover the silence of our valley on your own! In the evening we invite you to join us for a moonshine tour or star spotting tour. Maybe we even see the northern light!
- Wednesday** • A real highlight of this winter experience: Ice canyoning tour with our winter guide. Spectacular, easy daytrip along the frozen river and frozen waterfalls, possible to visit ice caves and experience ice in all colours. We bring wood and start a campfire on the tour and make coffee the trapper way.
- Thursday** • Today you have the possibility to try dog sledding at our neighbours camp, Sjudalen Hyttetun. This is 3 km from the hotel, follow the ski track or the marked snow shoe track. Open kiosk, you can try waffles and order hot drinks.. Try dog sledding or just watch the others and the dogs. You can also learn some norwegian fairy tales following snow shoe tracks through the «Saga forest».
- Friday** • Now you are trained for the ascent of the nicest peak in the area. Stuttgongkampen 1416 masl – a marked snow shoe track leads you the whole way to the top. It will take you about three hours to reach it. A fantastic view over the whole valley is the reward for the climb.  
• In the evening: We invite you to our wonderful sledge race with torches and a hot drink!
- Saturday** • Day of relaxation. Enjoy your last day in the valley on skis or snow shoes, chill in our panorama salong with coffee and cake and watch out for elks in the wide landscape. We offer a beer tasting in our beer cellar in the afternoon!
- Sunday** • Departure after breakfast
